- Adjourn
CANS COUPON CODE EXPIRATION

- CANS Certification Coupon Codes issued before 6/21/2019 have expired.

- New codes have been issued since 6/21/2019.

- Please contact the ICANS Helpdesk if your code is not working at icanshelpdesk@dhw.idaho.gov.

- The Praed Training site is overseen by the Praed Foundation. For issues with the site please contact info@praedfoundation.org.
Updated Agency Agreements are available on icans.dhw.Idaho.gov

The ICANS Agency Agreement has been updated to remove the language in Section 11.2 stating "Agreement shall expire after one (1) year from the latest date signed in the signature space below, thereafter unless terminated by either party as provided in this Agreement."

The updated ICANS Agency Agreement has been updated to the following language in Section 11.2: "Agreement End Date. This Agreement shall automatically continue year to year thereafter unless terminated by either party under any of the provisions in section 4.5 as provided in this Agreement."

The ICANS Agency Agreements signed prior to 06/06/2019 using the previous versions of the ICANS Agency Agreement (20181205 and older) will expire one year after the latest date signed.

At the time of expiration, your agency will need to submit a new ICANS Agency Agreement. -OR- Your agency can now submit a new ICANS Agency Agreement using the new version 20190605 to bypass the expiration period.

If your Agency Agreement expires it may impact your ability to access ICANS.
What it is:

• The Idaho Children’s Mental Health Screener is an online tool that can be used to help identify youth with unmet mental health needs.

• This screener was developed from the Child and Adolescent Needs and Strengths (CANS) tool. CANS Certification is not required to use the screener. The Idaho Children’s Mental Health Screener cannot be used in place of a complete CANS assessment. It is one of many tools a provider can use to identify unmet needs.

Who can use the Screener?

• The screener was specifically designed for practitioners in a non-mental health setting. Family doctors, mental health providers, probation officers, and others may use the screener if there is an indication that the youth may need help with their mental health.

When is it available?

• The Idaho Children’s Mental Health Screener will be available online starting 7/1/2019.
Thank you for attending the ICANS User Group

For input, questions or potential topics:

(844) 726-7493
Q: Where are the levels of care referenced? It states they are in the practice manual but the descriptions are not there.

A: (Refer to QA team?)

Q: How do we know if a CANS was completed at another agency?

A: You don’t explicitly. When adding a client, it may show potential duplicate records for the client at another agency, but this doesn’t mean that a CANS was necessarily completed.

Q: How do we access the CANS that was completed at another agency?

A: Ultimately, that information will have to be consented from the originating agency to your agency. This will, of course, require a written release of information. Consented assessments will display in the client dashboard (with the originating agency as the source).

Q: The notes aren’t populating when we pull forward from a prior assessment.

A: The profile section and the individual scores for each question will carry forward but the notes will have to be populated for each new assessment.
